## OBJECTIVE

I want to achieve higher career goals with my dedicated hardwork. My willingness to work hard and build my skill base will make me a good candidate for the job. I am willing to offer my services in this regard. If I am getting the chance of employment, it is my conviction that I will perform the duties to the best of my knowledge. I'm a web designer with a strong foundation in mathematics. My math background sharpens my problem solving, logical thinking, attention to detail all essential skills in creating clean, functional, and responsive websites.
